

We are looking for a candidate

Machine Operator – Hydraulic Excavator Operation

Who are we

MKW Interim is a Belgian temporary employment company established in Poland, specialized in providing qualified workers in Belgium and across Europe.

Our objective is to offer reliable, fast and legally compliant solutions, while ensuring full support for both workers and companies.

Job Description

As a machine operator, you will be responsible for operating a hydraulic excavator on construction and infrastructure sites. You will carry out earthmoving works, leveling, site preparation and trench opening on public roads.

Responsibilities

- Operating a hydraulic excavator (earthmoving, trenches, leveling)
- Site preparation and ground development
- Loading and moving materials
- Basic maintenance of the machine
- Following plans and technical instructions
- Strict compliance with safety regulations

Required Profile

- Experience operating construction machinery
- Good command of hydraulic excavator operation
- Sense of responsibility
- Precision and discipline
- Ability to work in a team
- Motivation and professionalism

Conditions

- Assignments in Belgium
- Work on construction sites
- Supervision provided by MKW Interim

What We Offer

- A structured working environment
- Assignments suited to your profile
- Personalized support
- Valuable professional experience
