

We are looking for a candidate

Fiber Optic Technician – Network Installation and Maintenance

Who are we

MKW Interim is a Belgian temporary employment company established in Poland, specialized in providing qualified workers in Belgium and across Europe.

Our objective is to offer reliable, fast and legally compliant solutions, while ensuring full support for both workers and companies.

Job Description

As a fiber optic technician, you will work on the installation, connection and maintenance of telecommunication networks.

Responsibilities

- Installation of fiber optic cables
- Fiber connection and welding
- Signal testing and measurements
- Maintenance and troubleshooting of installations
- Reading technical plans and diagrams
- Compliance with safety standards and instructions

Required Profile

- Training or experience in telecommunications or fiber optics
- Basic technical knowledge of networks
- Ability to read technical plans
- Precision and rigor
- Autonomy and team spirit
- Compliance with safety regulations

Conditions

- Work on construction sites or outdoors
- Assignments in Belgium
- Supervision provided by MKW Interim

What We Offer

- A structured working environment
- Varied assignments
- Personalized support
- Valuable professional experience
