

We are looking for a candidate

Electromechanical Technician – Industrial Maintenance

Who are we

MKW Interim is a Belgian temporary employment company established in Poland, specialized in providing qualified workers in Belgium and across Europe.

Our objective is to offer reliable, fast and legally compliant solutions, while ensuring full support for both workers and companies.

Job Description

As an electromechanical technician, you are responsible for the maintenance, troubleshooting and servicing of industrial equipment, combining skills in electricity and mechanics.

Responsibilities

- Preventive and corrective maintenance of machines
- Diagnosis of electrical and mechanical failures
- Repair and replacement of components
- Adjustment and commissioning of equipment
- Reading technical plans and diagrams
- Compliance with safety standards

Required Profile

- Training or experience in electromechanics
- Knowledge of mechanics and electricity
- Analytical and diagnostic skills
- Precision and rigor
- Autonomy and team spirit
- Compliance with safety instructions

Conditions

- Work in an industrial environment
- Assignments in Belgium
- Supervision provided by MKW Interim

What We Offer

- A structured working environment
- Varied assignments
- Personalized support
- Valuable professional experience
